

ILLUSTRATING
APPROVED METHODS FOR LOADING AND BRACING
CARLOAD SHIPMENTS OF
MILITARY AMMUNITION AND EXPLOSIVES

A C K N O W L E D G M E N T

The Bureau of Explosives expresses its appreciation for the cooperation and assistance from the Departments of the Army and Navy and of the Railroad industry in conducting tests and assembling the data contained herein.

P R E F A C E

The methods of loading and bracing of Military Ammunition included in this Pamphlet have the endorsement of the Departments of the Army and of the Navy and can be used by these Departments when specific Military drawings are not available. Likewise, these Departments should be consulted for approved drawings for loading and bracing individual ammunition items which have not been made part of this Pamphlet.

Methods of bracing, other than shown herein, should be submitted to the Bureau of Explosives for approval.
