# HAZARDOUS MATERIALS SEMINAR

**May 25–27, 2010**  
**Westin Crown Center**  
**Kansas City, Missouri**

## INTRODUCTION

The Bureau of Explosives (BOE) has been successfully supplying the hazardous materials/dangerous goods industry with quality products, training, and services since 1907. To meet the ever-changing needs of our customers, the BOE is pleased to announce its 23rd Annual Hazardous Materials Seminar. In an effort to fill the need for instruction in the practical aspects of handling and transporting hazardous materials, the BOE has selected a variety of workshops designed for shippers, carriers, and members of the emergency response community.

This year's seminar includes 2½ days of workshops on regulations, tank cars, emergency response and planning, and much more. Both new and familiar workshops encompassing the safe transportation of hazardous materials will be offered in a purposeful schedule. Come join us as we provide a dynamic and thought provoking program.

## EXHIBIT HALL

- Tuesday, May 25 7:30 am – 7:00 pm
